EDUCATION

SILICON UNIVERSITY

Nov 2022 - June 2026

BACHELORS: COMPUTER SCIENCE AND ENGINEERING

Bhubaneswar, Odisha CGPA:7.42

VIKASH RESIDENTIAL SCHOOL

2020 - 2022

CLASS XII

Sambalpur, Odisha Percentage: 88.6%

SKILLS

PROGRAMMING LANGUAGES: C, Java, Python, SQL, JavaScript

WEB TECHNOLOGIES: HTML, CSS, Bootstrap5, React, Node JS

DEVOPS: Git, GitHub, Aws, Azure

EXPERIENCE

AWS MASTERS | INGENIOUS TECH

Aug 2023

Completed a comprehensive course on Amazon Web Services (AWS), gaining hands-on experience with key cloud services such as EC2, S3, Lambda, and IAM. Developed a strong understanding of cloud architecture principles, including the design and deployment of scalable, secure, and cost-effective infrastructure.

AZURE MASTERS | INGENIOUS TECH

Aug 2024

Completed an in-depth course on Microsoft Azure, focusing on the deployment, management, and monitoring of cloud-based solutions. Gained practical experience with core Azure services such as Virtual Machines, App Services, Azure Storage, Azure SQL Database, and Azure Active Directory. Learned to design and implement secure, scalable cloud architectures using Azure Resource Manager and networking components like VNets.

PROJECTS

Unified Citizen Service Portal :

April 2025

Developed a centralized web application to streamline citizen access to various government services, including certificate issuance, ID requests, and subsidy applications, through a single, user-friendly interface.

- **Tech Stack** – HTML, CSS, JavaScript, ReactJS, Node.js.
- **Functionalities** – Centralized form submission for multiple services, category-based service filtering, real-time status tracking, responsive and accessible layout, and role-based user access for both citizens and administrators.

Hospital Management System:

Dec 2024

Developed a comprehensive web-based application to streamline patient care, administrative tasks, and clinical workflows within a healthcare facility.

- **Tech Stack** – HTML, CSS, JavaScript, ReactJS, Node.js, MongoDB.
- **Functionalities** – Patient registration and profile management, appointment scheduling, role-based dashboards for doctors and nurses, electronic medical records (EMR), billing and invoice generation, pharmacy inventory and prescription tracking, all within a responsive and user-friendly interface.

Portfolio :

Aug 2024

Developed and maintained a diverse portfolio showcasing projects in web development, software automation, and system design. Deployed the application on Netlify for public access.

- **Tech Stack** - HTML, CSS, JavaScript.
- **Deployment** - Netlify.

CERTIFIED COURSES

1. AWS MASTERS BY INGENIOUS TECH
2. AZURE MASTERS BY INGENIOUS TECH
3. UNDERSTANDING INCUBATION AND ENTREPRENEURSHIP BY NPTEL
