EDUCATION

SILICON UNIVERSITY

Nov 2022 - June 2026

BACHELORS: COMPUTER SCIENCE AND ENGINEERING

Bhubaneswar, Odisha Cgpa:7.76

VIKASH RESIDENTIAL SCHOOL

2020 - 2022

CLASS XII

Bargarh, Odisha Percentage: 88.6%

SKILLS

PROGRAMMING LANGUAGES: C, Java, SQL, JavaScript

WEB TECHNOLOGIES: HTML, CSS, React

DEVOPS: AWS, AZURE, Git, GitHub

EXPERIENCE

INGENIOUS TECH | AWS MASTERS

Aug 2023

Completed a comprehensive course on Amazon Web Services (AWS), gaining hands-on experience with key cloud services such as EC2, S3, Lambda, and IAM. Developed a strong understanding of cloud architecture principles, including the design and deployment of scalable, secure, and cost-effective infrastructure.

INGENIOUS TECH | AZURE MASTERS

Aug 2024

Completed an in-depth course on Microsoft Azure, focusing on the deployment, management, and monitoring of cloud-based solutions. Gained practical experience with core Azure services such as Virtual Machines, App Services, Azure Storage, Azure SQL Database, and Azure Active Directory. Learned to design and implement secure, scalable cloud architectures using Azure Resource Manager and networking components like VNets.

PROJECTS

UNIFIED CITIZEN PORTAL (In Progress)

MARCH 2025

Developed a responsive news web application using React.js to deliver the latest headlines with a modern and elegant UI.

- **Tech Stack** – React.js, HTML, CSS, JavaScript | Backend – Node.js/Express | Database – MongoDB.
- **Functionalities** – Service request submission, status tracking, secure login authentication, API integration for departmental services, responsive dashboard design, and accessibility-focused UI.

Developed a full-stack doctor appointment booking platform enabling patients to register/login, view available doctors, and schedule or cancel appointments; and doctors to manage their availability and bookings.

- **Tech Stack** - React JS, Mongo DB , Express and Node JS
- **Functionalities** – The system provides three levels of authentication: patients can register/login, book and manage appointments; doctors can view appointments, track earnings, and update their profiles; while admins can oversee all appointments and manage doctor profiles through an admin dashboard.
